

全自动列车打磨系统

FULLY AUTOMATIC TRAIN SANDING SYSTEM

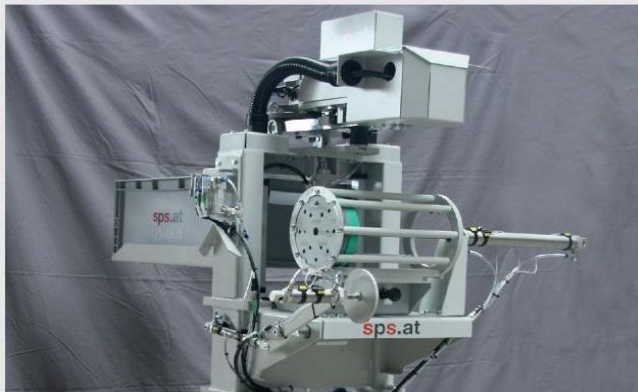

全自动列车打磨系统

fully automatic train sanding system

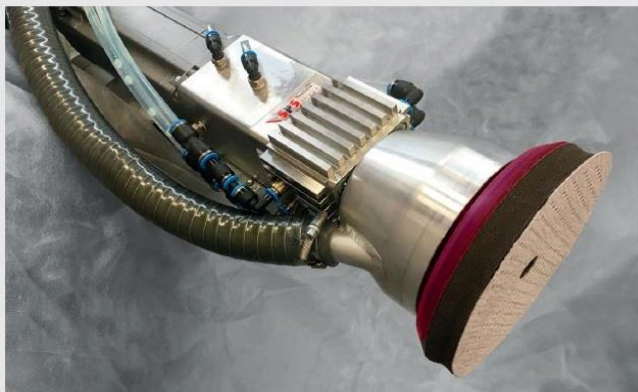

- ▶ 全自动打磨 干/湿
full automatic sanding dry/wet
- ▶ 最多6台机器人同时作业
up to 6 robots simultaneously
- ▶ 新车型离线编程
offline programming of new vehicles

SDM-砂纸自动更换站

SDM – Sanding Disc Master Changing station

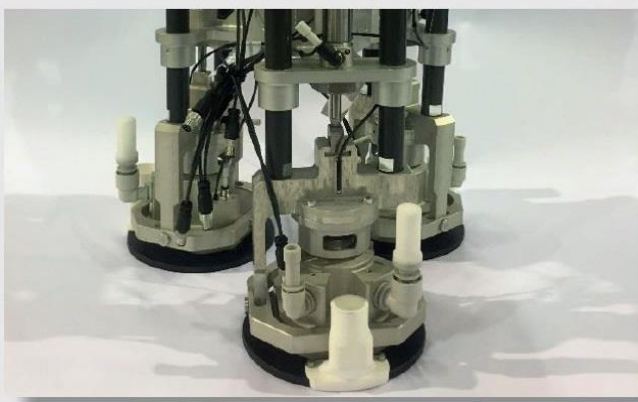

- ▶ 砂纸更换站和吸尘系统短时联动以保证最短的更换时间和吸尘能力
changing station and suction system co-moving for short changing times and maximum suction power
- ▶ 全自动更换 - 无需人工干预
fully automatic changing process – no manual intervention
- ▶ 可使用多种砂纸 (例如: 不同颗粒大小)
multiple magazines possible (e.g. different grain sizes)

ESM - 电动打磨大师

ESM – Electric Sanding Master

- ▶ 世界上功能最强大的轨道砂光机
the world's most powerful orbital sander
- ▶ 打磨速度和方向可变
variable speed and direction of rotation
- ▶ 专为工业机器人设计 24/7
designed for industrial robot use 24/7
- ▶ 可使用水冷或者空冷
cooling with either air or water possible

三头打磨装置

Triple sanding head

- ▶ 三重动力
triple power
- ▶ 缩短周期时间
reduced cycle time
- ▶ 优化打磨路径
optimized sanding path
- ▶ 适用所有材料的打磨, 研磨, 抛光, 去毛刺
sanding, grinding, polishing, deburring of all materials
